

ABSTRACT OF THE DISCLOSURE

5 A disk unit for reading information from  
or writing information to a disk by means of a head  
supported by an actuator includes a shroud having a  
face perpendicular to a surface of the disk and  
opposing a peripheral edge of the disk, and a  
spoiler having a given height in a direction  
perpendicular to the surface of the disk and  
10 extending above the surface of the disk from the  
peripheral edge to a center of the disk.
